

NO Aims for Exelon's Corporate Welfare Bailout! Exelon's nuclear bailout Legislation would: COST ratepayers \$250 Million per year (or more) for 6 years, NOT guarantee nuclear plants stay open or jobs not be lost, KILL future of renewable energy/ energy efficiency programs in Illinois. Want more radioactive nuclear waste?

What you can DO!:

Contact:

- Governor Bruce Rauner (312) 814-2121
- House Speaker Michael Madigan (217) 782-5350
- Senate Pres. John Cullerton (773) 883-0770

The Message: Say NO to Exelon!

- **NO** bailouts for Exelon's aging, money losing reactors
- Fix the Renewable Portfolio Standard
- Enact a "just transitions" program for reactor communities and displaced workers;
- Enact strong reactor decommissioning laws

Contact: NUCLEAR ENERGY INFORMATION SERVICE, www.neis.org, neis@neis.org, (773)342-7650

***If this legislation is REALLY about low-carbon energy, then
follow the RULES!***

The “2 X 4 Rule” of Fighting Climate Disruption:

The “2” major constraints (we’re short of BOTH):

- *Time*
 - *Money*

The “4” Rules of Operation-- An energy source MUST:

- *Remove the most amount of carbon...*
 - *In the quickest time...*
- *At the lowest cost possible...*
 - ***Without*** *creating, substituting or worsening equally planetary threatening, environmentally damaging, socially unjust or unacceptable alternatives (like nuclear proliferation, terrorism, war, waste, etc.)*

Nuclear Power FAILS all of these conditions.

NO bailout for Exelon’s uneconomic, renewables-killing nukes!
